Hi Samer.

How are you? I'm well and New York is great! Our apartment block is on the sixteenth floor, so we have a great view

New York has a lot of green spaces. There are also a lot of projects to create parks and green areas in parts of the city that no-one uses now, like the famous High Line. -do you know about it? It passes through our neighborhood, so I often go there with my parents. It's really cool,

Years ago, the High Line was a railway line, but in the 1980s trains stopped using it. Some local residents had an idea to make the old railway into a big, long park that everyone could use. Now it's a green space that runs for 2.5 kms, with more than 500 species of plants and trees in it! You can walk through the gardens, see art works, watch a theatre performance, eat delicious food, do a yoga class or go running, or just hang out with your friends there. I think it's my favorite place in New York. Wael
